

UniPak Premium Silage Covers

PREMIUM QUALITY – EUROPEAN MADE

UniPak Premium Silage Covers offer an excellent oxygen barrier solution for your bunker or pit silage.

European made with high quality UV stabilisers, in conjunction with premium grade black and white colourant additives, offering total opacity.

As well as being an excellent light, water and humidity barrier, **UniPak Premium Silage Covers** offer impermeability to gases from atmospheric pollution. This, combined with a high level of light reflection, means you can anticipate improved lactic fermentation, keeping and maintaining the high nutritional values of the forage.
